A motivated British Visual Effects Artist with a broad understanding of hard-surface modelling techniques, having put a lot of time to ensure I produce clean topology and meshes which are optimised to work well further down in the pipeline. Since my career started I have been fortunate to gain experience within a few roles which has both broadened my understanding of the pipeline and also my technical skills with managing data and hardware.

## EXPERIENCE

### Matchmove Artist at DNEG

*December 2019 – July 2020*
